To Whom It May Concern,

PL Consulting has assisted with the securing of incentive and rebate funding for multiple capital projects and mechanical upgrades. Their expertise has ensured the maximum rebates available for retrofit projects, utilizing the Save On Energy Program on behalf of our company, Morgan Mae Investments Ltd. All aspects of the projects and their services were performed in a timely, efficient and professional manner. PL Consulting proved to be an excellent resource by making themselves available to all of the questions pertaining to the Ontario Energy Programs as well as keeping our team updated on the progress of each project.

Each step of the rebate applications done by PL Consulting was completed properly and all site visits were done in a timely fashion without the disruption of any tenants. The costs associated with the retrofits were offset with the funding PL Consulting was able to allocate through the Save On Energy Program.

I am exceptionally satisfied with the service PL Consulting has provided and would definitely use their services again to secure not only government rebates, but for any energy reduction efforts Morgan Mae Investments look to complete in the future.

Yours Truly,

Morgan Mae Investments Ltd.
