To whom it may concern:

I have worked with Bill Seikris, of PI Energy for the past year. I have found Bill to be a great asset to me when trying to gain new business. Bill has managed all incentives in a professional and timely manner. His follow up with my customers has been constant, always letting them know the status of their incentive.

I have been working with PL Energy for the past two years selling Energy Audits. The entire team at PI Energy is extremely professional.

The team at PI Energy stays with the process guiding the customer through all the stages up to and including working with the contractors during the projects.

Over all my experience with Bill and the PL Team has been fruitful and beneficial to me and Northrock Mechanical.

Best regards

Diane Petryshyn
