

January 6, 2020

To Whom it may concern,

Throughout 2019, the Halton Catholic District School Board has partnered with **PL Energy Services** on a variety of energy efficiency projects and measures: complete facility lighting retrofits, targeted upgrades to achieve cost savings, and comprehensive energy audit reports.

In all cases, Mark, Konrad, Bryce and the rest of the PL Energy team have demonstrated an impressive level of knowledge in the mechanisms of energy consumption and conservation, a unique attention to detail, and a refreshing commitment to proper communication throughout at all project phases.

HCDSB plans to continue the partnership with PL Energy in 2020 and onward; I can confidently recommend them to fulfill your energy conservation needs, whatever they may be.

Sincerely,

Steve Allum
Manager, Energy and Environmental
