To whom it may concern,

Durham Region required assistance in understanding and quantifying the energy consumption for several properties in our portfolio. We also required capital spending projections incorporating energy savings and any rebates. We retained PL Energy Services to complete this work. PL Energy Services met with our management team, reviewed our goals and performed ASHRAE Level II Energy Audits.

PL's Energy Audits showed detailed, comprehensive breakdown of the equipment at our facilities, itemizing energy consumption, areas for improvement, rebates and payback. Based on their guidance, we had PL conduct further work for the Region and continue to utilize PL's services. We strongly recommend PL Energy Services to anyone who requires ASHRAE Level II Energy Audits or any energy modeling.

Yours truly,

A handwritten signature in black ink that reads 'JACEK SOCHACKI'.
